

NORTHBROOK

SEPTEMBER 2016

If We Can't Reach You...

We Can't Notify You!

A Reminder for All Drivers: School's Open

Motorists are reminded to be extra cautious.

In a school speed zone, the speed limit is reduced to 20 mph during school days when children are present. The Village also has streets with speed limits posted specifically at 20 mph. These 20 mph zones are constant and do not change with the school year.

September brings shorter days and the start of the school year.

Road travel increases and traffic patterns shift, so this busy time of year can also be a dangerous one – especially for children, as many rely on walking, biking or catching a school bus to school. Fewer daylight hours can make it harder for motorists to see these young students.

As a parent, you're the #1 influence on the kind of pedestrian, bicyclist and driver your child will become.

Set a positive example and keep your children safe. Whether walking, biking or driving, stay completely focused on the road and put your cell phone away when in traffic. Remind your children not to be distracted or use cell phones while in traffic areas or while riding their bike. If you have any questions about traffic safety, please contact the Northbrook Police Department at 847/564-2060.

Prepare for Emergencies

Make Your Emergency Plan Today!

If We Can't Reach You, We Can't Notify You!

Every year, communities across our country face emergencies – from unforeseen natural disasters to deliberate acts. We cannot always control how, when or where they occur, but we can prepare practical responses before disasters strike. This month is National Preparedness Month, the perfect time to make sure you have a plan at home, at work and while out of town.

Emergency Communications

Register your address, phone and email at www.northbrook.il.us/NorthbrookNotify so we can contact you via email, phone and/or text message. If you have questions or need assistance signing up, call 847/664-4040.

In addition, register for our NEW emergency-only text message system by texting 60062 to 888777. We will use this system community-wide as a supplement to Northbrook Notify. (Powered by Nixle.)

Flood Protection Information

History of Flooding In Northbrook

The Village's storm sewer system is comprised of over 123 miles of pipe; 5,320 inlets, catch basins, manhole structures; 24 miles of open drainage ditches; and 6 lift/pump stations.

The storm sewer system also contains three regional detention basins owned and maintained by the Metropolitan Water Reclamation District (MWRD) and one basin owned and maintained by the Village.

What is Flooding?

Flooding is generally classified as either structure (water enters a home or business) or street and yard flooding (water makes streets impassable for vehicles or is detained in yards). Flooding can be the result of a number of factors. This includes the total volume of rain received, the rate at which the rain fell, the amount of rain that has fallen leading up to an event affecting the level of the North Branch of the Chicago River which drains runoff from most of the community and how localized the event may have been.

While higher intensity storms may be referred to as a 100-year storm, a 50-year storm or a 10-year storm, these references do not necessarily refer to their frequency, but rather the likelihood that they may occur in a given year, regardless of the prior year's rain events. In other words, while the Village may experience two 50-year storm events in a year, the probability that there is a storm of that magnitude is 1 in 50 in a given year or there is a 2% chance that it will occur.

In recent years, the Village has experienced a number of significant storms, with a couple occurring this summer. These include a July 23, 2016 event in which Northbrook received 3-1/2 inches of rain over ninety minutes and a June 15, 2016 event when the Village received about 1-1/2 inches of rain in a very short duration of time. Both events included localized street flooding.

Other significant storms in the last five years include 5.25 inches on July 23, 2011; 4 inches of rain on April 17-18, 2013; and 3.53 inches on June 26, 2013. The largest storm of recent years occurred on September 12-13, 2008 in which 6.4 inches of rain fell.

During these substantial events, the Village responds to ensure the storm sewers are not blocked, closes streets to prevent motorists from being stranded and responds to residents who may be experiencing basement or house flooding.

Northbrook has been active in expanding our storm water infrastructure.

In 2011, the Village adopted a Master Stormwater Management Plan (MSMP). The projects in this plan are intended to improve conditions, but cannot eliminate flooding. The Village's priorities for these projects are structure flooding and street flooding which would prevent emergency vehicles from accessing homes.

One of the keynote MSMP projects concluding this year is located at Wescott Park where a 23 acre-feet stormwater detention vault was installed underground. This project is just reaching final completion.

Residents are encouraged to review the Master Stormwater Management Plan on the Village's website to learn more about what the Village is doing. For more information, Please visit: www.northbrook.il.us/stormwater

Flood Insurance – Are You Protected? Check Your Policy!

Keep in mind that standard homeowner's insurance policies do not cover losses due to floods.

Property owners in Northbrook can purchase separate flood insurance policies because the Village is a participant in good standing in the National Flood Insurance Program (NFIP). Property owners can insure both their buildings and contents, while renters can insure contents only. The NFIP is administered by the Federal Government and is available to everyone, even for properties that are located outside of the floodplain. The actual cost of the policy will depend upon the amount of coverage desired and the degree of flood hazard.

As of July 2016, there were approximately 153 flood insurance policies in the Village. You may contact your homeowner's insurance provider for information on purchasing a flood insurance policy. Federal Law requires that a flood insurance policy be obtained as a condition of a federally-backed mortgage or loan if the building or land is located in the Special Flood Hazard Area (floodplain).

Additional information can be found at both FEMA's website www.floodsmart.gov and the State of Illinois Department of Insurance's website, www.insurance.illinois.gov

Notes from Village President Sandy Frum

Plus ça change, plus c'est la même chose...

No, I don't actually speak French, although I often wish I did. However, this expression ("the more it changes, the more it's the same thing") reminds me of Northbrook's history as a community. As we celebrate our Village at Shermerfest this September, I wanted to take a step back in time...

The transformation of our rural town to a suburban Village didn't happen overnight. It's ironic how much has changed over time and yet how the challenges facing our early civic leaders

resonate today. One example is 1902, when the Village issued permits to install the first telephone wires in town. This was during the tenure of the first Village President Louis Voltz, a name you might find familiar, as the Village named Voltz Road in his honor. Today we are seeing requests for more and more permits to install fiber, wireless and other telecommunications infrastructure in the Village. And as the current improvements to Dundee and Shermer Roads wrap up, I am reminded of 1905 (no, I wasn't alive back then) when the Village Board, under the leadership of past Village President Herman Lorenz, passed an ordinance limiting the speed limit for vehicles to 8 mph. (Lorenz served two non-consecutive terms as Village President. He was our second Village President from 1902-1907 and again from 1909-1921.)

Decisions about Water Seem to be an Ongoing Thread Through the Decades

In 1913, the Village authorized \$3,900 in General Obligation Bonds for a public water system; water mains were installed along Waukegan Road and Western Avenue, as well as Cherry Lane and Fourth Street in 1922. Thanks to the foresight of Past President Bertrum Pollak, the Village constructed our own plant and direct connection to Lake Michigan in 1963 for our water supply. By doing so, Northbrook became the first offshore community to pump water directly from Lake Michigan. And in 1993, under the leadership of past Village President Mark Damisch, the Village improved our water pumping and distribution systems to meet the growing demand for water service as our community grew. As you've read in previous newsletters over the past year, the Village has undertaken an extensive review of our current and future water system requirements and now has a plan in place that will serve us well into the future.

And Public Safety has Always Been a Top Concern...

In 1959, the Cherry Lane Underpass was constructed to help fire trucks navigate the railroad tracks. In 1971, Northbrook decided it was time to have a full-time 24-hour Fire Department and Village Officials purchased the town's first ambulance in 1973 for \$15,592. In July 2016, the Village Board approved the purchase of a Pumper Fire Engine for \$700,000. Times have changed, but luckily these vehicles last about 25 years!

The Fabric of Our History

So yes, the years have changed Northbrook, but in many ways, the threads of the past intertwine with our present and future as a community. I encourage you to attend Shermerfest on September 18 to celebrate our history and share in all the Northbrook Historical Society has to offer. See the back page of this newsletter for details. If you'd like to learn more about Northbrook's History, pick up a copy of Northbrook, Illinois - *The Fabric of Our History* at the Historical Society. You'll find more information at www.northbrookhistory.org

Speaking of Public Safety... September is Severe Weather Preparedness Month

Fall marks students returning to school and the kickoff of football season. But the season can also bring weather hazards such as strong storms with whipping winds, floods and early season ice and snows. September is National Preparedness Month, which serves as a reminder that we all must take action to prepare, now and throughout the year, for the types of emergencies that could affect us where we live, work and visit.

I encourage every resident and business to sign up for Northbrook Notify by providing your address, email and phone contacts at www.northbrook.il.us/NorthbrookNotify for emergency and non-emergency Village communications or text 60062 to 888777 for emergency-only text messages. Also, visit www.ready.gov to learn more about how to make an emergency plan for your family or business.

A Message from the Northbrook Police Chief

I wanted to publicly thank the residents and businesses of Northbrook for the outpouring of support shown to our Police Department over the past several weeks.

During these difficult times across the county, it is reassuring to know that here in Northbrook, we have a strong dependable relationship with our citizens.

We appreciate every acknowledgement of support, from the many tasty treats brought to the station for on-duty staff, to the residents tying blue ribbons on the trees in their neighborhoods and the kind words offered to our Officers. Please know that we truly appreciate every act of kindness.

"We Will Remember" Sunday, September 11

The 15th Anniversary Remembrance of 9/11

We continue to stand united as a nation as we remember the innocent victims of the September 11, 2001, attack on America.

At 7:30am, Police and Fire Personnel will assemble at each of the Northbrook Fire Stations for a 7:45am solemn remembrance of the losses suffered at the

World Trade Center, the Pentagon and in Pennsylvania. This observance will commemorate victims and honor heroes of the attacks on America.

On Patriot Day, Fly Your Flag at Half-Staff

Sunday, September 11, is Patriot Day, a day to remember those who lost their lives in the terrorist attacks on our country. Americans should fly their flags at half-staff and may observe a moment of silence to honor those individuals who lost their lives as a result of the terrorist attacks.

Tree Care Tips

Your trees and shrubs are your most important landscape assets. Lawns can easily be replaced, but a healthy tree can actually increase your property's value.

Here are a few tips for tree care:

Proper Watering: Your tree needs at least 1 inch of water per week. Any more than that, and your tree could suffer from decaying roots. Less than that, and your tree may get heat stress and lose its leaves.

Mulch: Grass competes with trees for water, so it's not a good idea to plant grass around your tree. A mulch ring will provide moderate soil temperatures and soil moisture to allow your tree to grow well.

Visit www.northbrook.il.us/TreeCare for more information.

Touch-A-Truck

Bring the children to meet the fleet on Saturday, September 10, from 10am – noon, at Underwriters Laboratories, 333 Pfingsten Road.

Kids of all ages can climb aboard and pretend to drive an assortment of construction equipment and emergency vehicles at the Northbrook Park District's annual Touch-A-Truck event. The popular event is free and no registration is required, but children need to bring an adult. Bring your camera for this wonderful photo opportunity!

Flood Safety

What to do and what not do during a flood event

- Keep a battery-powered radio tuned to a local radio station and follow all instructions given.
- Be prepared to evacuate at a moment's notice.

Be sure you are registered with Northbrook Notify to receive information via phone, text and/or email about Northbrook specific information. Sign up at www.northbrook.il.us/NorthbrookNotify or sign up for our NEW emergency-only text message system by texting 60062 to 888777. The NEW text message system is a supplement to Northbrook Notify.

- Do not walk through flowing water. Currents can be deceptive; six inches of moving water can knock the average person off their feet.
- Stay away from downed power lines and electrical wires. Electrocutation is another major source of deaths related to floods. Electric current passes easily through water.
- Six inches of water will reach the bottom of most passenger cars causing loss of control and possible stalling.
- If your car stalls in a flooded area, abandon it as soon as possible. Floodwaters can rise very rapidly and sweep a car away. A foot of water will float many vehicles.

Property/Structure Protection

There are steps you can take to protect your home and property from flood damage

Before and especially in the hours prior to the threat of flooding:

- Move important papers, jewelry, clothing, collectibles and other valuable contents to upper floors or higher elevations.
- Bring outdoor possessions (lawn furniture, garbage cans, tools and other moveable objects) indoors or tie them down securely to prevent them from being swept away or thrown about.
- Furnaces, electrical panel boxes, washers/dryers and hot water heaters should be elevated or relocated to areas that are less likely to flood. Turn off utilities at the main switches or valves if instructed to do so. Disconnect electrical appliances. Do not touch electrical equipment if you are wet or standing in water.

Your home may be better protected from flood damage by regrading your lot to achieve positive drainage away from the structure and/or constructing a small earth berm. These methods may work as long as flooding is not too deep and the property is not located in a floodway. Any change in grade requires a permit and will not be allowed if it adversely impacts neighboring property.

Another means of protecting your home is to waterproof walls and place watertight closures over doorways and basement or sub-basement windows. This method is not recommended if flood levels are expected to exceed two feet. The installation of a standpipe or backflow prevention device can help prevent surcharging sanitary sewers from backing up in basements or sub-basement levels during periods of heavy rain. Standpipes and backflow devices are not recommended where water levels are expected to exceed two feet.

The installation of an overhead sanitary sewer can help prevent surcharging sanitary sewers from backing up in basements or sub-basement levels during periods of heavy rains. The Village has an overhead sanitary sewer cost-sharing program to assist with the conversion of private sanitary sewers; this program is administered through the Development & Planning Services Department and additional information can be obtained by calling 847/664-4050 or visit www.northbrook.il.us/5050program

Bring the Family to the Fire Department Open House on October 15

All are invited to attend the Northbrook Fire Department's Open House at Fire Station #11, 740 Dundee Road, on Saturday, October 15, from 9am to noon.

The fire engines, aerial ladder truck, squad truck and ambulances will be on display for your viewing. Firefighters and Fire Prevention Inspectors will be available to answer questions and share information. Fire helmets, stickers, coloring books and more will be available. *Save the date and plan to bring your camera!*

CRS Classification Reduces Your Flood Insurance Premium

The Village presently sustains a Class 7 status within the Community Rating System (CRS), which provides property owners in the Village a 15% reduction in flood insurance premiums for properties located in a Special Flood Hazard Area and a 5% reduction for properties located outside a Special Flood Hazard Area. The CRS program allows communities to achieve certain credits (i.e. reduction in flood insurance policy premiums) by implementing specified floodplain outreach activities and development regulations. Currently there are only 14 communities in Illinois with a Class 7 rating.

Floodplain Development Permit Requirements

The Village of Northbrook Zoning Code includes development regulations in the floodplain by the passage of Ordinance No. 92-6 covering floodplain development. The purpose of the regulations is to control the alteration of natural floodplains and stream channels to prevent the increase in flood hazards in other areas. Residents in floodplains who plan to do any type of work, including new construction, building additions, sheds, decks, fences, grading and landscaping, should first contact the Public Works Department at 847/664-4119 to determine what requirements apply and to obtain a Floodplain Development Permit application, if applicable. Residents may also call this number to report possible illegal development in the floodplain.

In accordance with the Village's Floodplain Development Ordinance, an existing habitable structure which was constructed prior to February 12, 1992 and located within the "flood fringe" (non-floodway portion of floodplain), may be improved by fifty percent (50%) or more of the market value of the structure prior to the proposed improvement, provided that the lowest floor, including any basement or sub-basement areas, is at or above base flood elevation (BFE). That is the historic measured level to which flood waters have risen in prior events. If any basement or sub-basement areas are below the BFE, they must be filled in and the structure properly elevated. These same requirements apply to repairs for substantially damaged structures which are defined as damages that are 50% or more than the structure's pre-damaged market value. For all new construction and improvements (on or after February 12, 1992) in the floodplain, the lowest floor must be elevated to a minimum of one foot above the BFE.

Drainage System Maintenance

If your property is located adjacent to a creek or other waterway, please try to keep the banks and channel clear of debris. Any filling or dumping of grass clippings, branches, other types of yard waste and trash can obstruct the flow of water or reduce the conveyance capacity, which could potentially cause flooding problems to upstream properties. If you observe any filling, dumping or evidence of past filling or dumping in any watercourse in the Village, please contact the Public Works Department at 847/272-4711. Causing an obstruction in any watercourse within the Village is in violation of Section 16-3 of the Northbrook Municipal Code. No filling of any waterway is allowed unless the proper state and Village permit requirements have been met. Please also check with the Public Works Department at 847/664-4119 on the permit requirements for any proposed bank stabilization work such as the installation/replacement of retaining walls. Residents are encouraged to perform routine maintenance checks of any watercourse adjacent to their property at least twice a year to ensure that no obstructions are present or unauthorized filling has occurred.

Flood Insurance Rate Map Inquiry

The Village of Northbrook's Public Works Department will continue to provide Flood Insurance Rate Map (FIRM) Inquiries for all properties located within the Village limits. This is the federal document that determines if a property is within or outside the regulated flood plain. This department also maintains FEMA Elevation Certificates on file for many structures that are located in or near the floodplain. That information can help you make decisions about investing in property. For more information contact the Public Works Department at 847/664-4119.

Village Happenings

The Library's **Classics on Wednesdays Film Series** features rarities from the silent era in September. Join us for Ben Hur, Pleasure Garden, and more! Screenings at 1pm & 7:30pm.

Northbrook Farmers Market has seasonal fruits and vegetables. The market is open 7am to 1pm through Oct. 19 at the corner of Cherry and Meadow. Visit www.NorthbrookFarmersMarket.org

Families can test their skills on the mini-golf course at Sportsman's Country Club at the **Labor Day Tournament** on Mon., Sept. 5. Fee is \$6/child and \$7/adult. Call 847/291-2351 for more information.

Curb Appeal: The Public Face & Design Perspectives of a Home will be presented by the Northbrook Garden Club on Tues., Sept. 6, 10am, at the Northbrook United Methodist Church 1190 Western Ave. Visit www.Northbrookgardenclub.org

Adult Open Soccer will be held Sept. 6 – Oct. 25 for those 18+ at Techny Prairie Park and Fields. Players divide into teams for games ranging from 3 vs. 3 to full field of 11 vs. 11. Cost \$55 for 8 weeks. For details, visit www.nbparks.org

Northbrook Park District fall programs begin week of September 6 and September 12. Online guide available at www.nbparks.org or visit any Park District registration office to register.

The **Park District Senior Center** invites adults to enjoy a Starved Rock Land and Water Cruise on Wed., Sept. 7. Fee \$95. Call 847/291-2988

It's never too late to improve brain health! Join Dr. Jim Maraganore at the Northbrook Public Library as he shares the exciting news on brain health and disease prevention on Thurs., Sept. 8, 7pm, Pollak Room. Registration recommended.

Moves Like Tori will be held at 2pm, Sept. 10, at the NSYMCA. Dance with Bizar Entertainment, have fun with bounce houses, games, face painting, balloon artist, snacks and more. Donation \$60 per family or \$15 per person. For more information, visit www.toriwilenskyfoundation.com

Heartland Animal Shelter's Annual Hogs for Dogs (and Cats) Charity Ride on Sun., Sept. 11. Registration at 10:30am at 2975 Milwaukee Ave., in Northbrook. Visit www.heartlandanimalshelter.net to register and/or adopt a pet!

Northbrook Symphony Orchestra Garden Serenade event on Sept. 11, 2-5pm. Stroll through a beautiful Northbrook garden with libations, hor d'oeuvres and entertainment provided by NSO. \$35 in advance; \$40 at the door. Call 847/272-0755.

Parent/Youth Golf on Sundays, Sept. 11, 18, and 25 for ages 8-13 with an adult: \$249/parent-child couple. Program focuses on golf techniques and on-course playing lesson. Register at 847/291-2351.

Northbrook Teen Theatre Company for students grades 8-12 meets on Mondays, Sept. 12 - Dec. 12, from 5:30-6:30pm; Fee \$155. Call 847/291-2995 for more details.

If you are a victim of domestic violence, or know someone who is, and need help, please contact: WINGS 24 hr. Hotline and Counseling Services and Emergency Shelter at 847/221-5680 or the National Domestic Violence 24 hr. Hotline at 800/799-7233. In an Emergency, dial 911.

The Northbrook Community Associates of the Art Institute of Chicago meet on Tues., Sept. 13, at Gloria Dei Lutheran Church, 1134 Pfingsten Rd., from 1-3pm. Leslie Goddard will speak about Arts Patron Bertha Palmer. The fee is \$10 and is open to non-members. Call 847/291-4139 by Sept. 7.

Anyone ages 55+ can take advantage of all the Northbrook Senior Center has to offer! For more information call 847/291-2988 or visit the Park District Senior Center!

September is Love Your Library Month! Whether it's signing up for a library card or simply stopping by, you'll find ways to fall in love with the Northbrook Public Library.

The Northbrook Arts Commission and the Northbrook Public Library will launch a new rotating local artist exhibit in September, called **"Artists in Residence" at the Northbrook Library**. The first exhibit features Jerry Block, Sheila Day, Marilyn Jamora, Julia Miller and Sharon Moyer.

The Northbrook Symphony Orchestra invites subscribers to sign up for the 2016-2017 season and take advantage of discounted pricing. For information, visit www.TheNSO.org

The Library's Fine Arts Fall begins on Sun., Sept. 18. This year's season also features the return of the Lyric Opera Lecture Series! Visit www.northbrook.info for the full lineup of Fine Arts Fall events.

The Library's jazz performances on film return on Tues., Sept. 13, at 1pm and 7pm, featuring the Tommy Dorsey Big Band, Billie Holiday, and more.

A Household Hazardous Waste Disposal Event will be held at the Northfield Township Road District, 1928 Lehigh, on Sept. 15 & 16 from 7am to 3pm. Visit www.northfieldtownship.com and click **recycle** or call 847/724-7055 for more information.

Meet Teddy Roosevelt at the Library! Award-winning actor Derek Evans brings to life our 26th President, one of the most charismatic personalities in our nation's history, on Sat., Sept. 17 at 2pm.

The Library is offering free writing workshops led by acclaimed authors and instructors! Join us for the first installment of Northbrook Writes on Thurs., Sept. 22 at 7pm. Registration is required for each event; visit www.northbrook.info to sign up.

Trains! Trains! Trains! The Mid-America Modular Rail Club will set up the club's HO gauge modular railroad layout at the Northbrook Historical Society, 1776 Walters Ave., on Sat., Sept. 24 and Oct. 1, 12-4pm, and Sun., Sept. 25 and Oct. 2, 12-3pm. Club members will be present. Great photo opportunities.

Be a Poll Worker for the November 8 Presidential Election for Suburban Cook County. To apply, visit www.cookcountyclerk.com/Judges

The Northbrook Park Board of Commissioners will meet on Wed., Sept. 28, 6pm at the Leisure Center, 3323 Walters Avenue. For details and agendas, visit www.nbparks.org in the About Us section, under Board of Commissioners.

Northbrook Autumnfest welcomes all ages to Meadowhill Park on Sat., Oct. 1, from 2-6pm for free family fun. No dogs are allowed at this event.

Both Parents and Teens are encouraged to attend a presentation, "Teen Dating and Healthy Relationships" on Sat., Oct. 1, from 9:30am to Noon, at the Northbrook Public Library. The panel discussion includes Nancy Vaccaro, Director of Counseling Services Northbrook Police Department; Eric Etherton, Assistant Principal of Student Services, GBS; and other local representatives.

The Northbrook Symphony Orchestra, under Director Lawrence Rapchak, presents "Romance de Paris -The Beautiful Era in France" with guest artist Zachary Brandon on violin at 4pm on Sun., Oct. 9, at the Sheely Center for the Performing Arts on the campus of GBN. The season opens with music that captures the excitement, color, and romance of late 19th-century Paris, featuring the alluring beauty of Debussy's beloved Clair de lune. There will be a free pre-concert lecture at 2:30pm. For tickets and more details visit www.northbrooksymphony.org

The Park District Senior Center lends free medical equipment to residents and Senior Center members for up to three months through the Lending Closet. For info, call 847/291-2988.

Art Displays at the Village Hall. Enjoy beautiful paintings created with oil sticks by Northbrook Artist Marlene White featured in the Village Gallery and pottery made from stone and porcelain clay by Northbrook Artist Janet Cordovi in the Village Hall Lobby Display Case.

Visit River Trails Nature Center, 3120 Milwaukee Ave. to enjoy a **Bird Walk**, a **Night Hike**, an **Owl Prowl** or the **Return of Scary Stories around the campfire**. Registration required for these fall events. Visit www.fpdcc.com for more information or call 847/824-8360.
