

Energy Efficiency Certificate Instructions

For Completion & Display

To comply with the 2018 International Energy Efficiency Code (IECC) requirements, you must complete & display the below compliance certificate on the building's electrical panel.

Energy Efficiency Certificate					
Insulation Rating					
Ceiling/Roof	<i>Attic</i>	R-		<i>Vaulted</i>	R-
	Walls	Frame		R-	Mass
Floors	Basement	R-		Crawl space	R-
	Over unconditioned space	R-		Slab edge	R-
Ducts	Attic	R-		Other	R-
Air Leakage Test Results					
Blower door		<i>ACH/50 Pa.</i>	Duct testing		<i>Cfm/100ft</i>
Fenestration Rating		NFRC U-Factor		NFRC SHGC	
Window		U-		U-	
Opaque door		U-		U-	
Skylight		U-		U-	
Equipment Performance		Type		Efficiency	
Heating System					AFUE
Cooling System					SEER
Water Heater					EF
Designer/Builder					
Code Edition	2018 IRC		Date		

*This certificate must be displayed on, or in,
 the electrical panelboard enclosure
 and be visible at the time of final inspection!*
